

<b>Job Title:</b>	<b>MMM Engineer</b>	<b>Reports to:</b>	<b>MMM Project Manager</b>
<b>Department/Group:</b>	<b>Engineering Services</b>	<b>Security Type:</b>	<b>SC</b>
<b>Location:</b>	<b>STS Defence Ltd - Gosport</b>	<b>Travel Required:</b>	<b>UK &amp; abroad</b>

**Job Purpose:** The delivery of Engineering Support to contracts including Maritime Multi Media (MMM) and UHF Fleet SATCOM equipment installed on Royal Naval ships, submarines and shore establishments to agreed timescales and budgets, while adhering to specified quality parameters. The MMM Engineer will have mechanical and electrical skills, for a customer facing role. The RAD010 Engineer will work for the general engineering support team, mainly focused on the MMM contract, fault finding, repairing and upgrading the TV and recreational systems on Naval vessels.

**Duties:** The MMM Engineer is responsible for:

- Providing off site engineering support; fault finding and maintaining the equipment in support of the Project Manager to meet the short and long term programme.
- Be able to deploy anywhere in the world inclusive of Contractors on Deployed Operations (CONDO) area's, in order to fulfil contractual and operational requirements (including OPDEFs – Operational Deficiencies). Training will be provided.
- To provide technical support to members of the STS 24/7 Help Desk Technical Support Team
- Liaise and communicate with system maintainers including training of ships staff and sub contractors.
- Testing of equipment, spares and reference systems in house.
- Take responsibility for quality of work carried out and ensure that Health & Safety policy is adhered to.
- Review, update and improve internal processes, and user technical documents.
- Undergo and maintain professional training including maintaining CONDO status.

**Skills/Qualifications:**

- Experience of working with Maritime communications and Multi Media systems.
- Technical skills and awareness, mechanical and electrical ideally.
- An in-date Passport and category B driving licence.
- Experience in the naval, maritime environment.
- Customer facing, field experience.
- Strong interpersonal skills.

**Additional Information**
